

Audition Script

(Please familiarize yourself with this script, memorization is preferred, but not required.)

Hello, my name is _____, and welcome to our website. Here, you can learn exactly how and why we are completely different than any other Graduation Supply and Photography Studio in Tucson.

Most photography companies are one-man shows that try to do everything themselves. If just taking photographs was the only part of a professional photography company in most cases that would be sufficient. But, unfortunately professional photography requires much, much more than simply snapping photos.

At Rembrandt Photography Studios & Herff Jones we are unique because we have one of the largest and most beautiful photography studios in Tucson, with an experienced, professionally degreed team of some of the most versatile and extremely creative photographers in Arizona. Our proprietary and painstaking proofing process of each image we shoot virtually insures that we capture the most memorable moment for portraits that will hang on your wall for a lifetime.

Additionally, with Herrf Jones we are also one of the largest Grad Supply stores in southern Arizona which provides unequalled service for all your graduation needs.

The synergy of these two companies allows you the convenience of shopping for high school or professional products with one single contact, but with the expertise of a highly professional team who have mastered the craft of photography unparalleled in Tucson.

You can learn the details of all our services by clicking on the buttons on this webpage. Please also enjoy our extensive portfolios where you can gain ideas for when you come to take your pictures.

We look forward to the opportunity to capture your fondest memories in photographs and video.

Thanks again for visiting Rembrandt Photography Studios & Herff Jones.
